

Looking Beyond Single Teeth: Management Strategies for the Ailing / Failing Dentition

Presented by:
Kyle Hogg, DDS

2 HOUR CE

LEARNING OBJECTIVES

- Treatment options for the failing dentition including fixed & removable partial dentures as well implant therapy
- Tips on effective laboratory communication regarding materials, geometry and connections
- Full Arch versus Segmented Arch treatment options for patients with a terminal dentition
- Proper maintenance protocol and important concepts that will help prevent biologic and technical complications

ABOUT

Dr. Hogg graduated from the University of Michigan School of Dentistry in 2004, University of Florida College of Dentistry (AEGD) in 2005 and went on to complete his MClintDent Prosthodontics at King's College London, UK. His private practice focuses on prosthodontics, aesthetics, and both the surgical and restorative phases of implant dentistry
