

The LANAP® & LAPIP® Protocol: A Paradigm Shift in the Treatment of Periodontal and Peri-Implant Disease

Presented by
Allen Honigman, DDS

2 HOUR CE COURSE

Dr. Allen Honigman, a board-certified periodontist originally from Ottawa, Ontario in Canada, currently is Assistant Professor in Periodontics at Rutgers School of Dental Medicine. He received his Masters degree in Microbiology and Immunology from Idaho State University, Doctorate of Dental Surgery from UTHSCSA and completed periodontic specialty training at UCLA. He lectures on LANAP and LAPIP to dental study club and dental meetings, nationally and internationally.

**26TH FEBRUARY
2025**

Registration & Dinner
5PM - 6PM

**Course
6PM - 8PM**

Course Location:
31646 Schoolcraft Road
Livonia, MI 48150

How to Register

COURSE DESCRIPTION:

The traditional treatment of periodontal disease has remained essentially unchanged for decades. With periodontal disease being associated or a contributing factor in many systemic diseases and complication, the need for acceptance of successful treatment is essential for the patients' overall health. The LANAP protocol, which utilizes the Periolas MVP-7 Nd-YAG free-running pulsed laser, is the only FDA cleared instrument for True Regeneration – new cementum, new PDL and new alveolar bone.

COURSE OBJECTIVES:

- Compare current treatment options for failing implants.
- Learn about laser physics and how they affect laser applications.
- Understand the application of LAPIP protocol for the treatment of peri-implantitis.
- Understand the basic differences between lasers that are in use in dentistry.
- Understand how the LANAP® protocol works to aid in regeneration of the periodontal apparatus.
- Understand the major advantages the LANAP® protocol over traditional periodontal treatment modalities.
